

CRIMP CHART

RYCO R205.2

CRIMP DIMENSIONS

**R200-1 Spacer Kit required to crimp 90 degree bent tube couplings. Will not crimp any other bent tube couplings.

IDENTIFYING RYCO BITELOK COUPLINGS

RYCO Bitelok couplings (MarkIII) have distinctive series code grooves on the body of the ferrule.

<p style="text-align: center;">T200 SERIES</p>  <p>2 series code grooves</p>	<p style="text-align: center;">T400 SERIES</p>  <p>3 series code grooves</p>
<p>Only T200 couplings have TWO series code grooves at the end of the ferrule as shown</p>	<p>Only T400 couplings have THREE series code grooves at the end of the ferrule as shown</p>
<p style="text-align: center;">T700 SERIES</p>  <p>4 series code grooves</p>	<p style="text-align: center;">T900 SERIES</p>  <p>6 series code grooves</p>
<p>Only T700 couplings have FOUR series code grooves at the end of the ferrule as shown</p>	<p>Only T900 couplings have SIX series code grooves at the end of the ferrule as shown</p>

*Ensure matched couplings for hose diameter is used i.e. T54 = T400-03

RYCO R205.2 CRIMP DIMENSIONS

CRIMPING RYCO BITELOK COUPLINGS

BITELOK CRIMP LENGTH

Bitelok couplings **MUST** be crimped over the entire length of the ferrule including the nose crimp where the ferrule is attached to the insert.

Crimp over the entire length of the ferrule.

Measuring Crimp Dimensions

Each crimp must be measured across the flats, with a vernier caliper halfway down the length of the ferrule.

MEASURE ACROSS FLATS HALFWAY ALONG FERRULE

CAUTION - DO NOT MIX/MATCH PRODUCT

Hydraulic Hose from one manufacturer is usually not compatible with fittings supplied by another manufacturer. It is the responsibility of the hose assembly fabricator to consult the manufacturer's written assembly instructions or the manufacturers directly before intermixing hose and fittings from two manufacturers. Similarly, assembly equipment from one manufacturer is usually not interchangeable with that of another manufacturer. It is the responsibility of the hose assembly fabricator to consult the manufacturer's written instructions or the manufacturers directly for the proper assembly equipment. Always follow the manufacturer's instructions for proper preparation and fabrication of hose assemblies.

Important Note:
