

Red-L Distributors Ltd.

Hydraulic Cylinder Repair

Maintaining and repairing cylinders such as those found in purpose built equipment, from garbage and waste removal trucks to snow plows, graders, heavy equipment and dozers.

Manufacturing of hard-to-find parts and accessories, crafting new shafts when it is more economical than re-chroming. Weld and machine parts as required, or fabricate new components as needed.

CHROMING

- **Shaft Replacement or Re-Chroming**
- **Custom Cylinder Machining - 14" hollow spindle bore**
- **Hard Chroming - Up to 14 ft Length**
- **Installation of Replacement Seals**
- **Honing**
- **Bore Welding**
